PETITION FOR DIVORCE.
ORLEANS COUNTY COURT, September
Term, A. D. 1906.
Barley H. Adams
vs.
Grace Adams
Whereas, Barley H. Adams, in the
County of Orleans has filed in the office of the
Clerk of Orleans County Court, his libel for
divorce, setting forth in substance that he
was legally married to Grace Adams,
of Keenelon in the County of Boone,
and Province of Quebec,
That during the coverture he on his part hath
faithfully kept the marriage covenant, and per-
formed all the duties appertaining thereto; that
the said Libellee on her part the marriage cov-
enant hath not kept, but hath violated the same;
for that the said Libellee did commit the crime of
adultery with one Edwin Morgan, and hath
continuously treated the said petitioner with in-
tolerable severity; and praying that for the
cause aforesaid said marriage might be dissolved
and a bill of divorce granted unto him.
And that he being made to appear that the said
Grace is not served with this, so that a citation
cannot be returned upon her.
Therefore it is ordered that notice of the peti-
tion of said libel be given by publication of
the substance thereof, together with this order, in
the Orleans County Monitor, a newspaper pub-
lished at Barton in the County of Orleans, three
weeks successively, the last of which publications
to be at least six weeks prior to the first day of
the next term of Orleans County Court, to be held at
Newport in the County of Orleans, on the 24th
day of September, A. D. 1906, at which time the said
Grace Adams is ordered to appear, and show
cause, if any she may have, why the prayer of said
petition should not be granted.
Given under my hand at Newport, in the
County of Orleans, on the 6th day of July, A. D.
1906.
H. B. Cushman, Clerk
H. A. Black, Attorney for Petitioner.

IN HUB MARKETS
Quotations on the Leading
Products in Demand

Boston, July 19.—Butter is very firm,
with some choice lots bringing above
quotations. Choice northern creamery,
21 1/2@22 1/2; western, 20 1/2@21 1/2; Ver-
mont dairy, 17@20c.
Cheese is quiet, but prices are firmly
held. York state, 11@11 1/2; Vermont,
10 3/4@11c.
The market holds very firm for choice
fresh laid and nearby stock, and prices
have advanced, but western eggs are
easy and in full supply. Choice hen-
ery and nearby, 25@27c; eastern, 23@
25c; western, 17@19c.
The week has been a good one in the
local fruit and vegetable market. Ap-
ples are in fairly good supply and there
is a good market for choice, large fruit,
poor windfalls have to go for what they
will bring. Strawberries have been
rather scarce and the best lots com-
mand high prices. Other kinds of ber-
ries are fairly plenty and cheap. Can-
talupe have been coming forward free-
ly and, although they have had a good
sale, they have been rather too plenty
and are much cheaper. Cherries are
firmer under light offerings; those from
California are few and small, and there
have been no receipts of any account
from nearby points. Le Conte pears
from Georgia are now here and sell fair-
ly well at \$4@5 a barrel. Offerings of
peaches are fairly large; prices have a
wide range, varying with the quality
and condition of the fruit. Plums are
in good supply and lower. The general
range is \$1.50@2 a crate, but sales are
reported below the low price and above
the high quotation.
An active demand developed for po-
tatoes. Sweet potatoes are not plenty,
but the demand is correspondingly
small. String beans are plenty at 75c a
bushel for green and \$1 for wax. Cab-
bages are abundant and very cheap.
Cucumbers are in steady request and
firm. Native onions have begun to
come in and have a ready sale at 12 1/2
a bushel. Texas onions are pretty well
cleaned up, and but few houses have
any left. Choice peas are in good
demand at \$1.25@1.50 a bushel. Pep-
pers are more plenty and cheaper.
Marrow squashes are here in large
quantity and very cheap. Offerings of
tomatoes are larger, and they have
dropped. Good sized turnips go well,
but the small ones are hard to sell.
Apples—Jersey early varieties, fancy,
\$1.50 a basket; average lots, 75c@1.25;
Norfolk, 50c@81 a basket.
Berries—Strawberries, 10@20c a qt;
raspberries, pints, 6@8c; cups, 3@4c.
gooseberries, 10@12c a quart; blueber-
ries, 14@18c a quart; blackberries, 8@
15c a quart; currants, 9@11c a quart.
Cantaloupes—Georgia, \$1.75@2.25 a
standard crate; South Carolina, \$1.50@
1.75 a standard crate; California, \$4 a
standard crate; \$3 a pony crate.
Cherries—California black, \$2.25@
2.75 an 8-pound box; white, \$2@2.50;
York state black, 8@10c a pound; white,
6@7c.
Grapefruit—California, 96 count,
\$3.50 a box; 80 count, \$5@6; 64 count, \$6
@6.50; 48 to 54 counts, \$5.50@6.
Pears—Georgia Le Conte, \$4@5 a bar-
rel.
Oranges—California navel, 96 to 126
counts, \$3.50@4.50 a box; 150 to 350
counts, \$4.50@5.50; St. Michaels, 200 to
216 counts, \$5@5.50; 250 to 390 counts,
\$3@4; Mediterranean sweets, \$3.75@
4.50.
Peaches—California, \$1.75@2.25 a
box; Georgia, \$1.75@3 a six-basket car-
rier.
Pineapples—Cuban red Spanish, \$2.25
@2.75 a case; Florida Indian river, \$2.50
@3; smooth cayenne, \$3.50.
Plums—California, \$1.50@2 a four-
basket crate.
Potatoes—New southern, rose and
cobblers, \$3@3.50 a barrel; Bliss, \$2.75
@3; sweet potatoes, North Carolina,
\$2.50@3.50 a barrel crate.
Beans—Native string beans, 75c a
bushel; butter beans, \$1 a bushel.
Cabbages—Native, \$5@7 a 100 heads
and \$1 a barrel.
Cucumbers—Hothouse, No. 1, \$2@3 a
box; No. 2, \$1@1.50; Norfolk, \$1@1.25 a
barrel.
Lettuce, etc.—Lettuce, 25c a bushel
box; Romaine, 50c a dozen heads;
escarole, 50c a dozen heads; chicory,
25c a dozen heads; parsley, 25c a bush-
el; mint, 25c a dozen bunches; water-
cress, 35c a dozen bunches.
Onions—Native, \$1.25 a bushel; Tex-
as, 75c@81.50 a crate; Egyptian, \$2.50
@3 a two-bushel bag; bunch onions, 40c
a box; leeks, 50c a dozen bunches.
Squashes—Native summer, 5@6
apiece; southern marrow, \$1@1.25 a
barrel.
There is no change noted in the prices
of pork provisions, but a revision is ex-
pected.
Fresh beef is higher in the asking
price, but trade is very slow, and dealers
find it difficult to get the advance,
except on a very few choice cattle. Ex-
tra sides, \$14@15c; good, 7@8c; light,
7@7 1/2c; heavy hinds, 10@11c; good,
9 3/4@10 1/4c; light, 9@9 1/2c; heavy fore-
legs, 5@6c; good, 5 1/4@5 1/2c; light, 4 3/4@
5 1/4c.
Lamb are steady, with very little
change in price and a moderate de-
mand; veals are quiet but firm. Spring
lamb, 14@16c; fall lamb, 12@13c;
yearlings, 10@11c; muttons, 9@10c,
veals, 7@10c.
The poultry market is steady, with
choice fresh stock firm and in fair de-
mand. Native broiler chickens, 25@
26c; fowls, 15c; ducks, 14c; western
broilers, 20@22c; choice, 14c.
Hay is firm for choice, but low grades
are dull and easy; straw is dull; mill
feed is quiet and easy, especially for
bran. Hay, No. 1, \$17.50@19; low
grades, \$12@16; rye straw, prime, \$12.50
@13; oat straw, \$8.50; sack spring bran,
\$19.75.

OUR FARMERS.
CARE FOR THE WORK HORSES.
Horses' necks and shoulders can be
toughened by washing them twice
daily in a decoction of white oak bark
or alum water. It is better to do this
in early spring. Also, they should be
put to light work at the same time,
slowly increasing the weight of the
loads, if they are hauling. This prac-
tice will render their shoulders quite
tough before hot weather sets in. In
the first place, soak the harness thor-
oughly in a tank of neat's-foot and
fish oil, or get your harness maker to
do so for you. It is easier for a horse
to work in a soft, pliable harness;
also, it is less liable to chafe the horse.
Second—Cut close to the neck the
mane just under the collar, and if
heavy and long trim it in front of the
collar, so that no coarse hair lies
between the collar and neck. By the
pressure of work this hair tends to
cut or gall the skin, make sores, or
aggravate those already formed.
Third—When you come in from
work, sponge the neck and shoulders
with cold water. Some add salt to
the water.
Fourth—Keep the face of the collar
clean. In hot weather remove the
collar at noon.
Fifth—At times while horses are
resting while at work step in front,
pull forward the bottom of collar,
letting the fresh air blow upon and
cool their shoulders.
Sixth—If horses have lumps on
their shoulders, mark on the collar
where they touch: hollow the spot
by a few smart blows with the face of
a hammer.
Seventh—If very bad, wrap thick
soft cloth around the collar, under
the harness, just above and below the
sore; or,
Eighth—If you have pads on the
collar, slit the side or back of the
same, and pull out the stuffing over
the sore or lump.
Ninth—Apply no grease or salve on
sores; it catches and holds dirt.
Tenth—With a pepper box dust
boracic acid on the sores twice a day.
First clean the sores with warm water
and castile soap, and dry with a cloth,
or use one ounce each of sulphate of
zinc and sugar of lead in a pint of
water. (Apply with a feather.)
After all, the best remedy for a sore
and worn horse is a few days' rest,
but the agencies mentioned will also
hasten recovery. I use common col-
lars, made open at the bottom as well
as on top, which makes them easier to
remove and easier on the horse. The
collar should fit closely and be kept
soft and clean. Just enough space to
insert the hand should be between
the horse's throat and the center of
the collar. The harness should fit well.
Horses with thick skin and thick
shoulders rarely need pads. Collars
ought not to be interchanged among
horses. Change shoes with your
neighbor, and after wearing the same
a few hours you will realize how hard
it is for a horse to work in a collar
fitted to another horse. A common
hair stuffed pad may for a short time
be used to advantage on a horse or
mule with bruised or galled shoulders.
Otherwise a leather pad (single thick-
ness of leather) probably is the best.
It should play loosely between collar
and shoulder. It acts as a buffer.
This style of pad is especially valu-
able to put on later in the season, for
as the horse works his shoulders
shrink and the collar fits too loosely.
The leather pad will fill the void.
A good fly net or sheet will help to
keep the team from worrying and
chafing themselves. I use loosely
woven sheets. They shield from the
hot sun and let in the air, as well as
ward off the attacks of flies. Fight-
ing flies causes horses to lose flesh and
chafe themselves nearly as much as
the work.
In hitching horses to mowers, bind-
ers, etc., see that their traces are not
too tightly drawn, lest the top of
collar be pressed back and bruise
their necks. Never require horses to
make a long pull with a heavy load
without brief rests, or you may injure
their wind. In hot weather, where
three or four horses are hitched
abreast, watch closely the middle
horse lest he become overheated or
windbroken.
Where horses are unmatched as to
height, the lowest of stature have to
bear the greater proportion of weight
of the tongue, etc., when hitched to a
binder; hence their necks are more
likely than those of the others to
become sore. The breast straps
should be adjusted so that the neck
yoke may lie more nearly in a hori-
zontal position.—B. B. Rice, in
Tribune Farmer.

NOTICE
To the Tax Payers of the Town of Barton.

This is to notify the tax payers of the town
of Barton that the taxes of the grand list of
1906 are now ready for collection. A dis-
count of 4 per cent will be allowed on all taxes
paid within 90 days from date. Taxes not paid
at that time will be put in the hands of a
collector to be collected by process of law. 90
days will expire October 5th, 1906.
FRED D. PIERCE,
Treasurer of the town of Barton,
July 7th, 1906.

GENEAL NEWS.
CONTINUED FROM PAGE TWO.

has been in progress in Central Penn-
sylvania since April 1st, has ended.
The miners finally accepted the small
increase in wages that was offered
them then and refused. The opera-
tors secure the right to employ non-
union men and discharge whom they
please.

Seven Girls Drowned in Succession.
Seven girls ranging in age from
seven to sixteen years were drowned
at Cedar Rapids, Ia., last week. The
smallest child slipped into a deep hole
and the others, who went to her aid,
were drowned one after another.
Only one girl of the entire party
escaped, the one that ran home and
gave the alarm.

Better Wages.
The announcement of an advance
to be made in the wages of cotton mill
operatives in Maine and New Hamp-
shire Thursday extends the wage in-
crease for cotton mill workers to
practically all New England. In
Maine, the Biddeford, Lewiston and
Waterville mills, employing nearly
10,000 hands, have announced an in-
crease amounting to about 5 per cent,
and the Amoskeag and other large
corporations in New Hampshire, em-
ploying over 10,000 hands, announced
an unexpected increase.

Uncle Sam Ends the Strife.
The Central American states of Sal-
vador, Guatemala and Honduras have
been mixed up in a short but bloody
war, which has apparently come to
an end through the mediation of this
government. Salvador and Guate-
mala began it, and Honduras was
drawn in as an ally of Salvador. Re-
ports as to results of the fighting are
mixed, but Guatemala seemed des-
tined to get the worst of it. Presi-
dent Roosevelt's tender of the good
offices of the United States was ac-
cepted by the belligerents, and a meet-
ing arranged, to take place on the
American cruiser Marblehead, now in
the locality.

NEW ENGLAND'S COAST RESORTS.
The call from the Seashore has
already sounded! Vacation dreams
were planted months ago but the
advent of hot weather and the sultri-
ness of city heat have set in bloom
and matured the early seedlings
and budding plans of previous days.
Vacation days are already here! The
seashore resorts are fast preparing,
and in a short while the coast of
Northern New England, from Boston
Harbor to the Bay of Fundy, will be
welcoming the resorters. Massa-
chusetts has certainly a gay process-
ion of seashore resorts. The North
Shore, whose unbounded fame gains
year by year, boasts of everything
that is best in the seashore line.
Swampscott with its magnificent
palatial summer hotels and delightful
opportunities for bathing; Marble-
head, famed for its spacious harbor
where the fleets of summer
yachtsmen and the admirable
location of the summer colony at the
Neck; Beach Bluff, Clifton, De-
veraux, Manchester, Magnolia, Glou-
cester, Rockport, Plum Island and
Salsbury Beach. New Hampshire has
not so much to offer in her shore
resorts as to number, but the beauties
and attractions of Hampton and Rye,
the famed of Newcastle with its never-
to-be-forgotten "Peace Conference
Associations," well balance any laxity
in number. Maine is the premier
land of the United States. Her
entire coast from Kittery to Eastport
is a stretch of broken coast land
which forms beautiful harbors and
coves, the most magnificent summer
resorts to be found anywhere. York,
Old Orchard, the queen of the North
Atlantic beaches, Scarborough, Wells,
Kennebunk, Peaks Island and so on to
Bar Harbor, Maine's shore posses-
sions are numerous and attractive.
In order to fully appreciate the
glories of New England's coast, one
should spend a vacation at some of
these resorts. The Boston & Maine
R. R. will give you all the necessary
directions. In the Hotel Booklet for
1906 will be found a list of all the
shore resorts, their hotels and
accommodations, and a beautifully
illustrated and descriptive booklet
called "All Along Shore," describing
in detail the glories of the North
Atlantic Coast, will be sent upon
receipt of a two-cent stamp. The
Hotel Booklet will be sent free by the
General Passenger Department, Bos-
ton & Maine R. R., Boston.
